VALOREX

ROOTED IN EXPERIENCE

VALOREX is a premier manufacturer, supplier, & exporter of high-integrity industrial engineering solutions. Over the years, we've expanded not only our product offerings but also into countless industries, supporting everything from heavy machinery and emerging projects. We've also expanded geographically. What once started as a single location has grown into an international footprint spanning continents.

Rooted in long-held business traditions, we've maintained the agility of a business with the muscle of a global corporation. Through expansion of all kinds, our priorities haven't changed: supporting our customers with dependable products, deep expertise, and people who take ownership of the work. The heart of **Valorex** remains the same - **our customers & our people.**

Our story continues to be one of leadership, growth, and a passion for excellence because with **Valorex**, you're not just getting a product; you're getting a **PARTNER**!

Our mission is to provide best-in-class **Instrumentation & Piping solutions**, leveraging our extensive sourcing with a consultative approach.

"That is the **Valorex** difference."

THE VALOREX STANDARD

Valorex has been a leading manufacturer and a distributor of **Tubing, Piping & Industrial components.** We support the industries that keep the world moving.

OUR VALUES

Where quality meets availability, innovation removes friction, and support feels personal.

CERTIFICATIONS

Committed to Quality, Environmental Responsibility, and Health & Safety across the process.

PRODUCTS OF

Tube Fittings

Single & Twin-Ferrule Compression,
Weld & Adapter Fittings.

Tubes & Pipes

Seamless
&
Welded.

Flanges

- Blind;
- Lap Joint;
- Slip-on;
- Socket Weld;
- Threaded;
- Weld Neck.

MRO & Spare Parts

- Pumps & Motors;
- Couplings,
- Welding Electrodes;
- Consumables & Maintenance Spares.

Precision Machined Components

- SS Custom Parts;
- Bushes & Sleeves;
- Pins, Spacers Adaptors & Inserts;
- Electrical Brass Terminals;
- Fasteners & Studs.

Pipe Fittings

- Butt Weld;
- Socket Weld;
- Threaded.

Instrumentation Valves

- Ball Valves;
- Needle Valves,
- Check Valves;
- Manifolds & Accesories;
- BBV & DBBV.

An ISO 9001:2015 Registered Quality Management System

HOW WE COMMIT TO QUALITY

No matter the industry, **Valorex** provides high-performance critical flow components to keep your systems operating at their best. With Fittings, Adapters, & Accessories, we stand behind our commitment to Availability, Quality, Support, and Innovation -because with **Valorex**, you're not just getting a product; you're making connections with a trusted partner.

✦ QUALITY

Have confidence knowing our products are of such high quality performance, that they are reliable in every industry. With in-house manufacturing facilities and ISO-certified labs, we control the quality from raw material to final threading, ensuring precision at every step.

✦ AVAILABILITY

While others are backordered, we're shipping. With distinct SKUs, we hold the inventory for what you need, when you need it.

✦ SUPPORT

Always offering more than products - we provide expertise before and after the sale because with us you gain a partner in success. Contact our expert customer service and sales reps via phone, e-mail for real-time support.

✦ INNOVATION

Leading with innovative solutions to streamline your operations, including CAD files and traceability feature. Also, our four service programs - V Verify, V Identify, V Perform, and V Supply, help solve common manufacturing challenges.

✦ SUSTAINABILITY

Being committed to practices that promote a cleaner, healthier environment, we partner with eco-conscious suppliers and our recycling program focuses on the responsible disposal and reuse of materials like cardboard, plastic, and metal scrap.

VERIFY

Order errors are costly, inefficient and can lead to downtime. Our semi-automated weight-counting verification system minimizes errors to near zero.

IDENTIFY

The batch code on our fittings ensures purchasing accuracy by matching the right part to its number.

SUPPLY

Alleviate logistics issues and supply chain disruptions. By partnering with us, we will guarantee availability of your safety stock ensuring product availability when you need it.

PERFORM

High-performance critical flow components are at the core of everything we do. Precision-engineered to perform flawlessly, our products ensure strong, dependable connections for your operations.

Hardness - Carbon

Machinability - Carbon

Strength - Stainless Steel & Carbon

Good Weldability - Stainless Steel

Corrosion Resistant - Stainless Steel

CAPABILITIES

MANUFACTURING

With client's across the world, Valorex's manufacturing expertise is unmatched in the industry.

Material Options: Stainless Steel, Carbon Steel, Brass, Duplex, Super Duplex and other Exotic Alloys (i.e. Inconel and Monel)

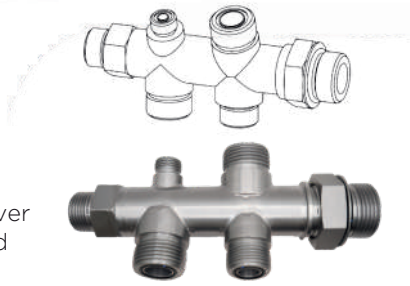

Forging: Standard Fittings use Steel forgings for fewer leak points and a stronger metal body. Custom forgings can be developed for customer specific applications to ensure top-tier performance.

Brazing & Welding Processes: If a product design does not allow for a forging, Valorex has brazing and welding capabilities that will maintain the quality of the product.

Bent Tubes: For specific applications, we also offer bent tube, swept versions of various types of fittings.

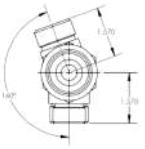

Finishing Options: No matter how corrosive or extreme the conditions, we have the solution for you. Clear Zinc, Zinc Nickel, Anodize, Unplated, Passivated.

CUSTOM ENGINEERING

Comprehensive engineering capabilities designed to deliver high-quality connections and custom solutions.

Our team focuses on product design, precision manufacturing, and enabling the development of specialized components tailored to specific industry requirements.

TESTING

In house testing capabilities and access to ample third party testing labs to meet customer requirements.

In House Testing: "The Lab": To validate material quality and characteristics. Verifying chemical composition, mechanical properties hardness etc.

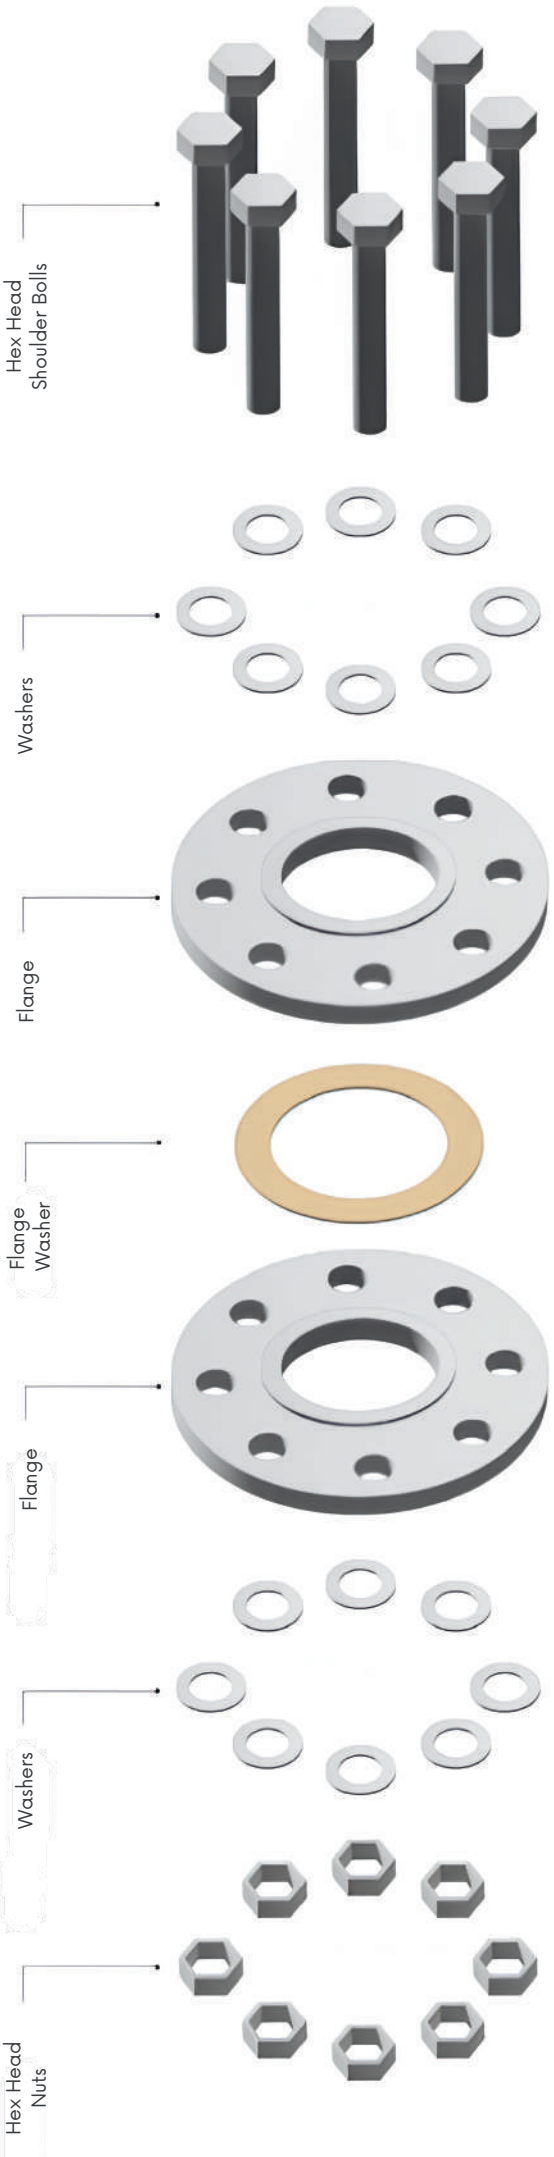

Third Party Testing: Working pressure, material composition, and torque. Others available upon request.

DEVELOPING QUALITY PROCESSES TO MEET YOUR NEEDS...

We manufacture to the highest quality standards, meeting or exceeding requirements like ISO, ASTM, ASME and others.

Our in-house quality team ensures compliance with industry and customer PPAP requirements.

VALOREX

SUPPORT

From customers to partners to every employee, our people are our greatest strength. We work as an extension of your business as if it were our own.
